Plafond ou fixation de néons.Ceiling with support for neon lights

■ Néons avec support. Neon Lights (36 WATTS, Length : 1,20 m) with support structure.

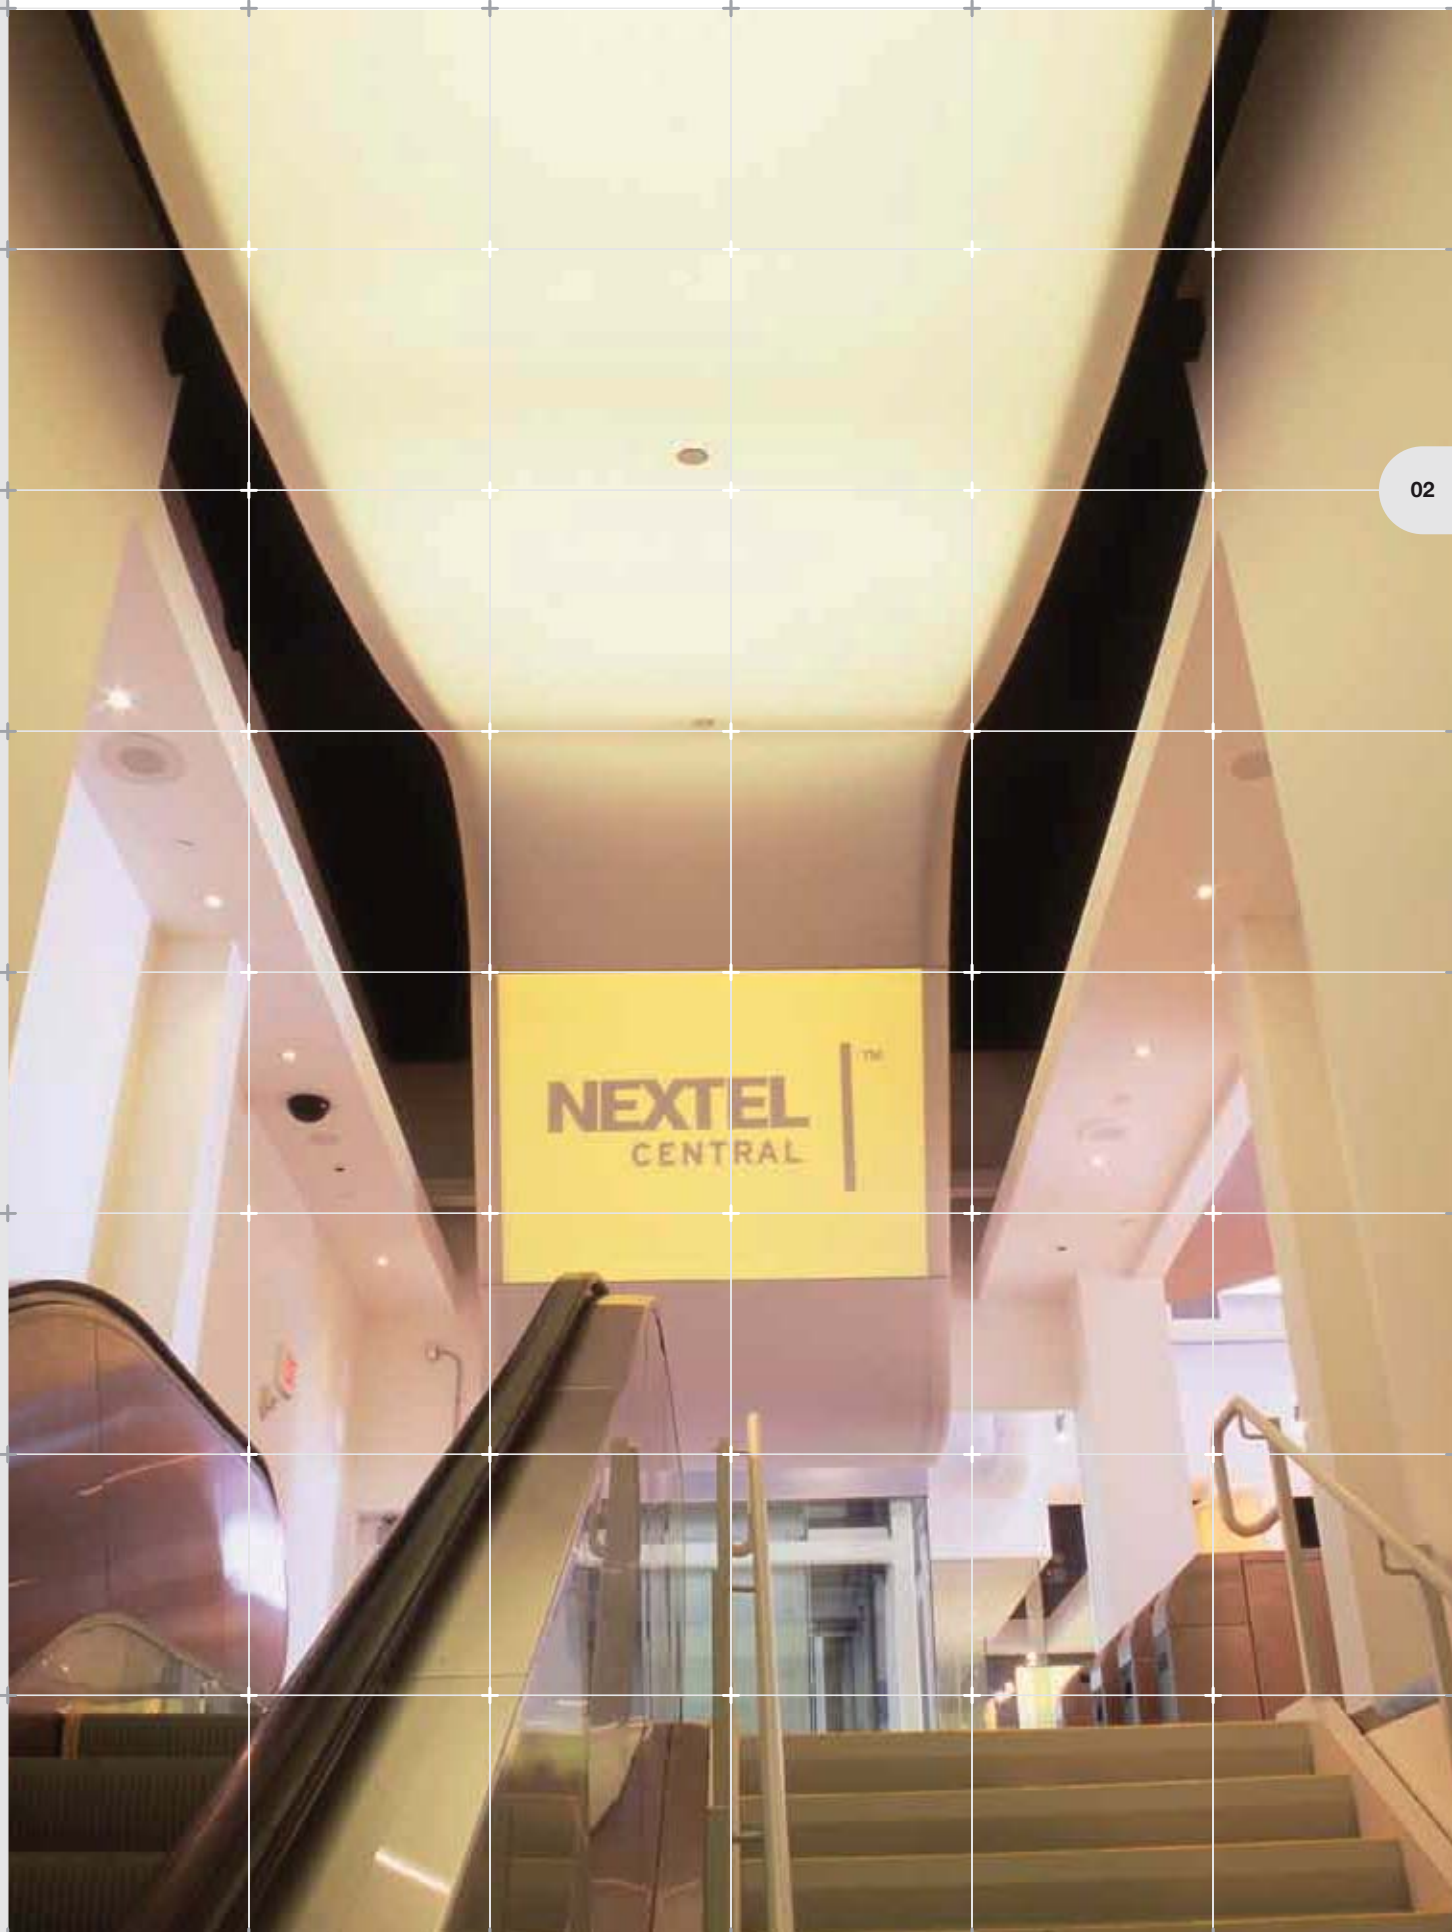

X : Distance Néons/Toile. Distance between Neon Lights and stretched Ceiling (30 cm minimum).

A : Distance entre les néons. Distance between Neon Lights.

*Diffusion lumineuse et antipoussières
Light diffusion and dust protection

$A < 1 \times X$

A l'aide de cette formule vous pouvez déterminer les distances entre néons et la distance néons/toile. This equation allows you to calculate the optimal distance between the neon lights, as well as the distance between the neon lights and the stretched ceiling.
